CARE. A PROVEN CUSTOMER-CENTRIC PRE-COLLECT PROGRAM

The Green Zone Defined

The first 120 days of a past due balance.

Research shows that accounts that are collected within the first 120 days beyond the due date are far more profitable. Time is the biggest impact on your bottom line. C.A.R.E. secures payments and outstanding balances when customers are still in this green zone, maximizing cash flow and minimizing disruption to the business relationship.

A Powerful Preemptive Recovery Solution, C.A.R.E. Puts Time on Your Side

Real Business Benefits

Increase Profitability

÷\$÷

C.A.R.E. cuts collection costs in half by resolving accounts more quickly without the expense of a third-party agency. With one flat fee, the cost

to collect is on average less than 1% of the invoice balance.

Maintain Customer Relationships

C.A.R.E. actually improves customer relationships by utilizing a proven process grounded in friendly, professional human interactions, pre-empting the needs for aggressive collections tactics.

Enhance A/R Performance

C.A.R.E. handles collecting on protracted accounts, freeing up your accounts receivable team to focus on other accounts. Plus, C.A.R.E. compiles customer and collections data, revealing new department insights that allows you to refine a company-wide collections strategy.

A Proven Process

C.A.R.E.'s superior results are grounded in getting customers to pay faster without sacrificing the business relationship.
